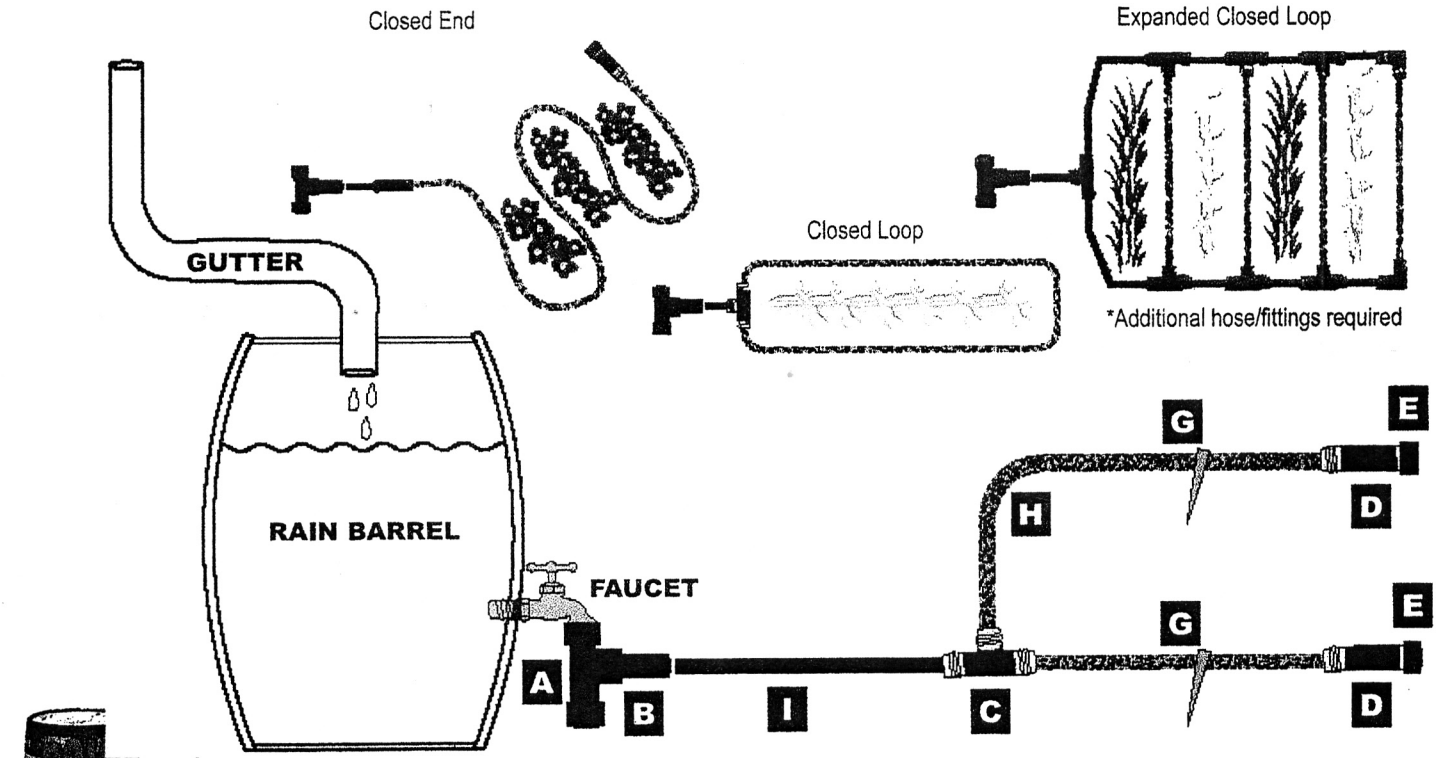
Rain Barrel Soaker Hose Kit #193

BOX CONTENTS	A	B	C	D	E	F	G	H	I
Item									
Product Name	T-Filter 200 mesh (cleanable)	Female Hose End	Tee	Coupling	Cap	Elbow	Stakes	50' Soaker Hose	25' Poly Tubing
Quantity	1	1	1	3	2	NOT INCLUDED	NOT INCLUDED	1	1
Item Number	107-200	109	123	113	141	115	129	190	178

INSTALLATION METHODS



HELPFUL TIPS

Measure and sketch your garden area out. Make note of any additional fittings and types you may need before installation.

Starting at the water source, layout your design, using heavy scissors to cut hoses to desired lengths.

Hose must be on a flat or slightly declining surface. The system does not work running uphill.

Elevating your barrel will result in greater water pressure.

Before initial use, flush system using garden hose.

The system is expandable with the purchase of additional hose/fittings.

Fittings easily thread or push together, no clamps or glue needed.
